

Environmental Policy

Sarah is a commercial building company with a family history of over 60 years in construction. We are motivated to assess all environmental aspects and impacts of our industry and grow alongside our clients' expectations of our environmental protection controls.

At Sarah we are committed to embracing environmental management goals within our construction activities. We are fully supportive of the principles of ecologically sustainable development through effective resource and energy management including the appropriate use of environmental protection, pollution control and conservation of natural resources.

To meet this commitment, we will:

- ✓ Set environmental objectives annually that will be actioned, monitored, and reviewed within the context of this policy.
- ✓ Fulfil all compliance obligations, including compliance with relevant Commonwealth and State environmental legislation and ISO 14001.
- ✓ Implement, review, and update the environmental management system to meet compliance obligations, environmental objectives and continually improve our environmental performance.
- ✓ Ensure that our construction services are provided in a manner that actively pursues environmental best practices, minimises negative impacts on the environment, and the sustainable use of community resources.
- ✓ Continue to train our employees and subcontractors to keep abreast and aware of ever-changing environmental issues and their responsibilities.
